Issue 341 June 20, 1986

Aland Island - OH0 Martti Lane OH2BH and Ilkka Reittila OH2BVI will put OH0AM on the air from Aland June 20-26. Same frequencies as the Market Reef DXpedition (see I339). QSL to OH2BH. Try 2200-0200Z for low band contacts.

Karen State - 1Z 1Z9A hands out Zone 26 QSOs (if not Burma contacts) 14226 from 1130-1400Z. Meanwhile, the IARU has received a letter from Burmese officials stating that amateur radio have been illegal in Burma since Jan. 10, 1964. This suggests that Don Miller's 1965 operation (the last credited Burma operation) was not, in fact, legitimate.

Wanted - Band Country Totals: Send your band totals (all time, deleted, or both) to The DX Bulletin by June 30 for our Summer listing.

Ten Meter Beacons Things are pretty slow on 10 meters, but the band is open more often than most DXers realize. For a list of beacons to help you spot openings, send an SASE to TDXB. Thanks K2OLG.

NCDXF The Northern California DX Foundation has elected Bob Ferrero W6RJ as President. The NCDXF reminds DXers that a US\$10 annual donation is requested from all members.

Propagation Watch

Overheard on the local repeater, "Gee, I wonder if these good band conditions we've been having indicate that the new sunspot cycle has started early?" Sorry, no such luck. Sunspots from "new" cycles appear in high solar latitudes, and have a polarity opposite to those from the "old" cycle near the solar equator. Alas, those spots that have been giving us plenty of 20-meter excitement recently have been clustered around the Sun's equator: old cycle spots. Official predictions suggest 1987 as the start of Cycle 22; maybe we'll be lucky and it will start earlier.
